**Proper shipping
name**

Domestic Lubricating Oil

**PRODUCTS NOT INCLUDED IN THE
CURRENT RESOLUTION ON
TRANSPORT OF DANGEROUS
GOODS**

**Emergency Assistance:
0800-707-7022 / 0800-17-2020**

Aspect: Nonflammable, slightly viscous, slightly yellowish liquid with characteristic odor. Chemical Incompatibility as per NBR 14619:2006:
Class/Subclass 4.1 only for products with UN no. 3221, 3222, 3231, and 3232
Class/Subclass 5.2 only for products with UN no. 3101, 3102, 3111, and 3112

PPE: **PPE for the exclusive use of the emergency response team:** PVC gloves and apron, hard hat, rubber boots, wide vision safety glasses, half-face respirator with chemical filter for organic vapors. The driver's PPE is specified in ABNT NBR 9735.

HAZARDS

Fire: Nonflammable product. Its residues are combustible. Flash Point = 182°C. Avoid direct contact with sources of heat or ignition (Weld, Flame, etc.)

Health: Irritates the skin, eyes, and upper airways; prolonged inhalation may cause headache, numbness, vertigo, narcosis, and death.

Environment: Contaminates watercourses, making water use improper for any purpose; it may be toxic to the fauna and flora of the spill area, mainly to aquatic organisms.

IN CASE OF ACCIDENT

Leak: **Area isolation:** Remove the vehicle from the highway and stop the engine. Isolate the area, and signalize [the danger to traffic]. Notify local authorities.
Stop container leak: Stop the leak at the source using impervious material.
Contain leaked portions: Small Leaks: Use absorbent material / sand and recover in appropriate containers. Large Leaks: Dam up the liquid using absorbent material / sand, preventing the product from entering drains.
Transshipment precautions and product handling restrictions: If possible, use water spray/mist to reduce vapors. Do not smoke or use an open flame in the area.

Fire: Block the leak. Cool containers with water.
Small Fires: Use foam, CO₂, or dry chemical (powder) extinguisher.
Large Fires: Use water spray/mist or foam.
Wear safety clothing and self-contained breathing apparatus.

Pollution: Prevent the product from reaching streams, spring water, and sewers to avoid contamination.

People's Exposure: **SKIN:** Remove clothing and footwear contaminated/saturated with the product, wash affected skin areas only with water and neutral soap.
EYES: Hold eyelids open and wash with clean water and neutral soap. Seek medical attention.
INHALATION: In case of nausea or dizziness, take the victim to a well-ventilated place and seek medical attention.
INGESTION: DO NOT induce vomiting. Never give anything by mouth to an unconscious person. If you feel unwell, seek medical attention.

Information to Physician: Central nervous system depressant.

Manufacturer: SINGER DO BRASIL INDÚSTRIA E COMÉRCIO LTDA.

Remarks: The instructions to the driver in case of emergency are exclusively described in the transport envelope.
